

**Admiral S. Robert Foley, Jr.,  
United States Navy, Retired**

Retired Admiral S. Robert Foley was Vice President of the University of California for Laboratory Management from October 2003 until his retirement from UC in February 2009. As vice president, he had responsibility for UC's management of the three national laboratories it administers on behalf of the U.S. Department of Energy and its National Nuclear Security Administration. Admiral Foley served in the Navy for 35 years and held several operational commands, including Commander of the U.S. SEVENTH Fleet and Commander-in-Chief of the Pacific Fleet. In 1985, following his military career, Foley served as President Reagan's Assistant Secretary of Energy for defense programs, where he had responsibility for the nation's nuclear weapons complex, including the UC-managed Los Alamos and Livermore laboratories as well as the country's other nuclear weapons plants and facilities.

In 1988, Foley was named president of the Advanced Technology Group at ICF Kaiser Engineers. In 1991, Foley joined the Raytheon Company, where he served as vice president for commercial marketing, president of Raytheon Japan, and vice president of Asian Operations for Raytheon International, Inc. Foley received his master's degree in International Affairs from George Washington University in 1968. He graduated from Naval War College in 1968 and was recognized as a Distinguished Graduate of the Air War College. He has received numerous honors and awards, including the French Legion of Honor, the Japan Order of the Rising Sun (First Class), the U.S. Navy Distinguished Service Medal, and the Secretary of Energy's Gold Medal for Distinguished Service.

For the last few years Admiral Foley has been a member of several proxy Boards of Directors and Special Security Arrangements for foreign owned companies doing business with the Depts. of Defense and Energy. Admiral Foley holds Top Secret and "Q" clearances for DOD and DOE.
